Crypto is another example of "Creative Accounting." A code word for Ponzi.

Interesting pseudo award there Senator Daines.....by all means let's support an extremely risky financial vehicle that has the all too real possibility of running its passengers into bankruptcy and financial oblivion. But hey...win some, lose some eh, Senator?

Maybe you can conjure up some crypto to help your Orange Jesus with the \$250M lawsuit, or will send out more emails requesting donations to defend him like you did in 2017?

You already lost me by selling us out on the water compact and now you're teaming up with globalists to steal our money through digital currency.

You no longer represent Montana.

One would think rather than the many X/day pat-me-on-the-back photo ops we might see something uplifting about how you are actually helping others. Guess that's too much to ask of a narcissist.

Oh, Sediton Steve! You are SO gullible. If you really believe in crypto, tell us how much YOU have invested? Or is it just another scam to fleece the rubes?
